FINANCIAL ASSISTANCE

A 100 percent discount for medically necessary services is available to patients who earn 200 percent or less of the Federal Poverty Level guidelines. Elective services such as cosmetic surgery are not included in our charity program. Those who earn between 200 and 400 percent of the Federal Poverty Level guidelines may be eligible for a partial discount equal to the Medicare discount rate. Patients who qualify for financial assistance will not be charged more than the Medicare discount rate. Patient copays and deductibles may be eligible for discounted rates if a patient qualifies for financial assistance and earns less than 200 percent of the Federal Poverty Level Guidelines. Services such as cosmetic procedures, hearing aids and eye care that normally are not covered by insurance are priced at package rates with no additional discount. All payments are expected at time of service.

Discounts are also available for those patients who are facing catastrophic costs associated with their medical care. Catastrophic costs occur when a patient's medical expenses for an episode of care exceed 20% of their income. In these cases, patient copays and deductibles may also be included in the discount.
